Modules: physics70a Elective Advanced Lectures: Experimental

**Physics** 

physics70b Elective Advanced Lectures: Applied Physics

Course: universitäthonn Or

Optics Lab (E/A)

Course No.: physics732

Category	Туре	Language	Teaching hours	СР	Semester
Elective	Laboratory	English		4	WT/ST

# Requirements for Participation:

Preparation:

### Form of Testing and Examination:

Credit points can be obtained after completion of a written report.

### Length of Course:

4-6 weeks

#### Aims of the Course:

The student learns to handle his/her own research project within one of the optics groups

Available projects and contact information can be found at: http://www.iap.uni-bonn.de/opticslab/

### **Contents of the Course:**

Practical training/internship in a research group, which can have several aspects:

- setting up a small experiment
- testing and understanding the limits of experimental components
- simulating experimental situations

## **Recommended Literature:**

Will be given by the supervisor
